Sunlight: ☉ ● ●

Hardiness Zone: 4

Other Names: Candy Snowberry First Editions series

Group/Class: First Editions Series

#### **Description:**

A versatile small shrub valued for its clusters of candy-pink glossy berries that persist into winter along the gracefully arching branches, great for cutflower arrangements, a highly ornamental compact rounded shrub; excellent for mass plantings

#### **Ornamental Features:**

Candy Coralberry Snowberry has bluish-green foliage with grayish green undersides throughout the season. The oval leaves do not develop any appreciable fall color. It features subtle white bell-shaped flowers with pink overtones along the branches in early summer. It features an abundance of magnificent hot pink berries from early fall right through to late winter.

#### **Landscape Attributes:**

Candy Coralberry Snowberry is a dense multi-stemmed deciduous shrub with a shapely form and gracefully arching branches. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and can be pruned at anytime. It is a good choice for attracting birds to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Suckering

**Plant Characteristics:**

Candy Coralberry Snowberry will grow to be about 30 inches tall at maturity, with a spread of 30 inches. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 15 years.

This shrub performs well in both full sun and full shade. It is very adaptable to both dry and moist locations, and should do just fine under typical garden conditions. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution.

This particular variety is an interspecific hybrid.
