SPECIFICATIONS

It is the City's intent to seek competitive bids for Hot Mix Asphalt materials needed for work during 2018 for street repairs and paving streets and over bike/walking trails.

All Hot Mix Asphalt materials are to meet Minnesota Department of Transportation Standards and Specifications.

All Hot Mix Asphalt Material will be picked up by the City.

In determining the low bidder for a particular job site, the City will factor in \$3.00 per mile from the Hot Mix plant to the job site in recognition of the City's hauling costs. Multiple bids may be approved because the low bid for a job site may be dependent upon the distance from the Hot Mix plant to a particular job site.

The City reserves the right to purchase asphalt from another responsible bidder in cases of long waiting lines, breakdown of plant equipment, and if the quality and quantity of asphalt is not available.

Last year the City purchased approximately 13,000 tons of Hot Mix Asphalt materials from various suppliers.
