

Frontenac™ Grape

Vitis 'Frontenac'

Size: #1

Ripening in September

Zone 3

Full Sun to Part Sun

Frontenac™ Grape is a cold hardy grape from the Minnesota fruit breeding program. It produces abundant, medium sized, dark blue grapes that are excellent for eating out of hand or wine making. Like all the grapes we offer this is an excellent vine for growing along a fence, an arbor, or in a formal vineyard
