Annual water report available for 2022

Published each June, the City of Plymouth annual drinking water report is now available to view online. Like past years, Plymouth's water met or surpassed all 2022 state and federal water quality testing, regulations and requirements.

The report contains monitoring results from previous year(s). City of Plymouth water is tested weekly by an independent, state-certified laboratory. Results are submitted to the Minnesota Department of Health.

Plymouth's water is regularly tested for more than 100 contaminants, such as bacteria, nitrates, pesticides, solvents and metals. Water is also tested multiple times per day for appropriate chemical levels and water quality. View the report at plymouthmn.gov/waterreport.

The public may download and print the water report, or request a paper copy by calling 763-509-5000 and arranging to pick it up during normal business hours (8 a.m. to 4:30 p.m. Monday-Friday) at Plymouth City Hall, 3400 Plymouth Blvd.

Water Efficiency Rebate Program

To encourage water conservation, Plymouth offers rebates for projects that replace inefficient toilets, irrigation systems, dishwashers and washing machines with WaterSense® or Energy Star® certified versions.

Funded, in part, by a grant from the Metropolitan Council. Residential and commercial properties may be eligible. For details, visit plymouthmn.gov/waterrebate.

Electric vehicle charging stations are now powered up in Plymouth

At press time, EV charging stations were fully operational at five public locations – Plymouth City Hall, Plymouth Community Center, Plymouth Ice Center, Plymouth Creek Park and Zachary Playfield. Once complete, the city will have a total of 115 charging parking stalls across 13 locations.

As part of the agreement, Carbon Solutions Group funds capital and operational costs for the EV charging stations at no cost to Plymouth taxpayers. Users pay a fee to

The City of Plymouth offers summer ordinance reminders to residents

As residents head outdoors to make the most of the warm weather, the city offers reminders about some ordinances that help bolster safety, promote property upkeep and encourage courteous neighborhood practices.

Bonfires

Recreational fires (bonfires) are permitted in Plymouth, provided that certain requirements are met:

- Must be contained within a ring, pit or similar device
- Must be at least 25 feet from any structure
- Must be attended by at least one responsible person 18 years of age or older
- Are prohibited when the Minnesota Department of Natural Resources declares a burn ban or the Minnesota Pollution Control Agency issues an air quality alert

For more information, visit plymouthmn.gov/bonfires.

Noise Ordinance

Loud, unnecessary or unusual noise that disturbs the comfort, peace or safety of others is not allowed. Additionally, any music that can be heard beyond the property line of origin between the hours of 10 p.m. and 7 a.m. is also a violation. To report a noise violation, call the 24-hour non-emergency number at 952-258-5321.

Garbage, Rubbish and Yard Waste

Property owners must ensure that garbage, rubbish (debris, litter, construction materials, etc.) and yard waste/compost does not accumulate on their property. Residents may not deposit grass clippings, leaves or soil in a street, gutter, catch basin, sidewalk or trail. For details, view City Code Section 600 (Garbage and Rubbish Disposal) at plymouthmn.gov/citycode.

Curfew

Plymouth's curfew ordinance mirrors that of Hennepin County, which is observed in other neighboring cities as well. The curfew law is as follows:

- **Younger than 12:** Home by 9 p.m. (10 p.m. Friday and Saturday)
- **Ages 12-14:** Home by 10 p.m. (11 p.m. Friday and Saturday)
- **Ages 15-17:** Home by 11 p.m. (midnight Friday and Saturday)

Tall Grass and Vegetation

Except in native landscape areas, turf grass and uncultivated/rank vegetation should be no more than 8 inches tall. Property owners are responsible for removing, trimming and managing nuisance vegetation on their property, which includes noxious or invasive weeds identified by the Minnesota Department of Agriculture and other prohibited plants.

Additionally, trees or shrubs should not impede travel or sight lines on a roadway, trail or sidewalk. For details, view City Code Section 807 (Vegetation Management) at plymouthmn.gov/citycode.

Fires, Grilling at Multi-Family Dwellings

Bonfires and grilling on a balcony or deck is prohibited in multi-family dwellings (three or more housing units), such as townhomes and apartments, unless grills are permanently plumbed/installed and have been approved by the fire chief. Grills, devices with an open flame/fuel and heated appliances cannot be stored within 15 feet of the building. These restrictions help protect neighboring tenants.

As a volunteer, Nancy's job is to welcome and assist couples holding their ceremony at the Plymouth Community Center's Millennium Garden. She

offers guidance during the rehearsal on topics such as use of the sound system, suggested processional order and participant arrangements.

Because Nancy and others volunteer in this role, more than 50 couples who marry in the garden each year can approach their big day with confidence.

Nancy's favorite thing about being a city volunteer: "The variety of volunteer opportunities Plymouth offers," she said. "There is something for everyone and it's easy, fun and fulfilling. One of my favorite things is assisting newlyweds during wedding rehearsals as they get ready to celebrate their special day with each other, family and friends. The Millennium Garden is one of the many jewels Plymouth has to offer. I am proud to be a resident and volunteer of this awesome city."

Pick up after pets: Dog owners are responsible for picking up after their pets and must carry bags/necessary equipment. Pet waste left behind is washed into lakes and streams, polluting water. Pet waste should be thrown in the garbage, not composted.

Parks, playgrounds and pickleball keep Plymouth stepping

By Mayor Jeff Wosje

One of my favorite qualities about Plymouth is that residents have access to an abundance of opportunities to stay active. During last year’s community survey, about 9 in 10 Plymouth residents gave excellent or good ratings to the city’s health and wellness opportunities, the availability of paths and walking trails, and the quality of parks and recreation opportunities.

I am proud to announce that our community recently racked up another accolade – first place for most active community in the 2023 Step to It Challenge.

Facilitated by Hennepin County each May, the annual initiative pits 26 participating communities against each other in a friendly physical activity competition. Virtually every action counts – walking, biking, running, cleaning, gardening, or playing with your kids. Plymouth topped the list with 73,860,456 steps. Congratulations to all who participated!

One reason it’s so easy to stay active in Plymouth is the availability of quality parks, playgrounds and amenities – many of which are driven by requests from residents.

You have likely heard that pickleball has surged in popularity in the past few years, as has demand for courts. I’m thrilled to share that Plymouth will complete six new dedicated pickleball courts this July at Zachary Playfield, 4355 Zachary Lane.

Other requested amenities are coming in 2024 – including the city’s first cricket pitch, a sledding hill, more pickleball courts and soccer fields at the Meadows Park. While we await these new opportunities for play, I encourage you to visit a new (to you) park, discover a new playground or try a new amenity in Plymouth. Browse a listing at plymouthmn.gov/parkfinder.

I’m grateful to live in a community that prioritizes staying active and investing in parks and amenities. Keep up the good work, Plymouth – and stay stepping.

Plymouth News is published bimonthly by the City of Plymouth to update residents and businesses on city government news.
